Bahawalpur

SUMMARY

Dedicated and results-oriented Computer Science student with a strong foundation in full-stack web development, specializing in React and Node.js. Experienced in developing and maintaining robust front-end interfaces, implementing authentication using JWT, and connecting to back-end databases like MongoDB. Proven ability to work on client projects, delivering high-quality code within deadlines. Adept at problem-solving, collaborating with cross-functional teams, and adapting to new technologies. Passionate about continuous learning and innovation in software development.

PROJECTS

Paypath - Payment Pathway Platform

09/2024 - 09/2024 Evonicsoft-Bahawalpur

<https://react-templates.evonicmedia.com/paypath/>

Developed a payment pathway platform using React, with features like pricing cards, titles, and section descriptions. Integrated mock data and connected the backend using Node.js and MongoDB to enable dynamic data flow.

- Successfully implemented a seamless backend integration, resulting in a 25% faster data retrieval and enhanced user experience.

Optimistx - SEO & Digital Agency

06/2024 - 07/2024 Evonicsoft-Bahawalpur

<https://html-templates.evonicmedia.com/optimistx/>

Designed and built a responsive website for an SEO and digital agency with custom loaders and cross-device testing using HTML, CSS, JavaScript, and Bootstrap.

- Achieved an SEO score of 90+ on Google Lighthouse for performance and accessibility.

Finteezy - Fintech Startup & Digital Wallet

07/2024 - 08/2024 Evonicsoft-Bahawalpur

https://themeforest.net/item/finteezy-fintech-startup-digital-wallet-html5-website/54234343?s_rank=4

Created a professional website for a fintech startup focused on digital wallet services. Ensured full responsiveness and integration of modern web practices.

- The website contributed to a 20% increase in customer engagement within the first month after launch.

The Living Quran - Quran Reading App

03/2024 - 03/2024 Bahawalpur

<https://tabish5858.github.io/The-Quran-App/>

Developed a Quran reading app with features like reading, listening, bookmarking ayats, dark mode, and font size adjustments. Built with React and Tailwind CSS using APIs.

- Successfully integrated a feature-rich, accessible Quran app with positive user feedback on usability and performance.
